

How to find your purchased CCX once they have been transferred to your MetaMask wallet. In the example show here we are using Metamask **but please check the that your wallets can search for Tokens before you have CCX sent to them if you are not using MetaMask wallets**

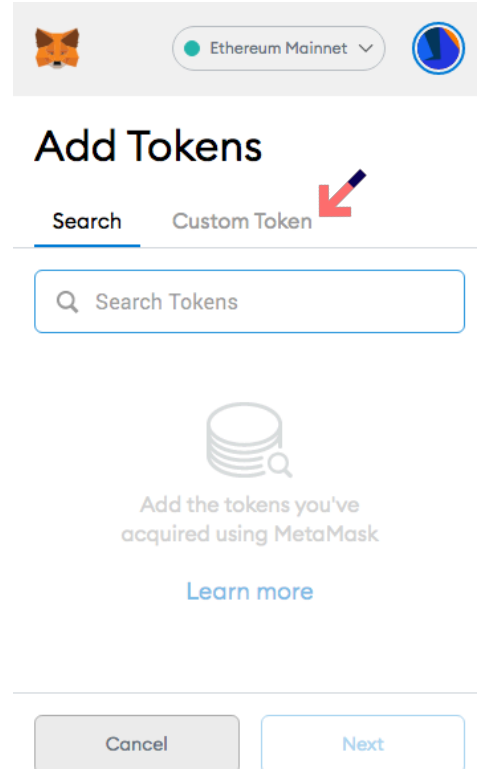

One: Open your wallet and find the Add Token Button. **Two:** Select Custom Token. **Three:** paste in the CCX contract address. **Four:** click next and your CCX will appear.

The CCX contract URL <https://etherscan.io/token/0x84ce597b08651fbf551cee3240a3e86365449d51>
